

As a Republican I'm shocked that the public airwaves can act in this blatant political way.

First, Sinclair refused to show the images of our brave, fallen soldiers on Nightline and now they order their channels to air this biased view of another war hero. So, their against living and dead heros?

Where is the fairness to the public in Sinclair's actions?

It is this environment that has forced me to search my political conscience and decide to support Kerry.

Thank you,
